Therapeutic Summer Program

A powerful one-week experience that lasts all summer — and beyond — built for children who struggle with emotional regulation, behavioral challenges, and sensory overwhelm

Children **recognize their internal cues** and **practice self-regulation skills** *in the moment* through our purposeful five-step system:

STOP

CONNECT

BREATHE

ACKNOWLEDGE

RECREATE

In just one week, children **experience meaningful energetic shifts** for *less stressful summer adventures* and *calmer, more successful transitions* throughout the school year.

Children learn through:

- Mindfulness, communication, teamwork, and problem-solving activities
- Carefully designed animal-assisted interactions
- Sensory-friendly confidence-building tasks
- A peaceful, safe, judgment-free farm environment

Intentionally small groups:

- 2 children per leader = personalized attention
- **Spaces are very limited.**
- Secure your child's spot today.

Program format:

- **Duration**
One-week sessions
- **Daily**
Monday - Thursday • 3 hours per day
(choose AM or PM sessions)
- **Open House**
Optional Family Open House on Friday
9am - 12pm

Your Program Director:

Gail Hunsberger carries multiple nursing certifications as well as a Master Certification in Social Aspects of Human-Animal Interaction. She is committed to transforming lives through the power of human-animal bonding.
